WHY ADDIPEL?

- Blend and pelletize existing customer formulations
- Ability to tailor packages to customer needs
- Ability to use customer supplied raw materials or offer competitive offsets/chemical equivalents
- Toll manufacturing options available
- No minimum order quantities

PRODUCT OVERVIEW

- Polyamide heat stabilizer packages
- Incorporate other additives to bring additional value add properties to finished compound
- No foreign carriers

CAPABILITIES

- High Shear mixing vessels
- Multiple diameter die sizes

PACKAGING

- CorrDrums
- Fiber drums with metal LokRim lever
- Bulk gaylord boxes
- Heat sealed bags
- 20-25 kg box/drum
- Custom packaging available

STANDARD NON-DISCLOSURE AGREEMENT
AVAILABLE UPON REQUEST
